

Geography Week 1: Megacities

Written application (20 to 30 minutes). Pen and paper. Use your class notes for the Evidence Bank only; after that, answers come from the bank, not from the page.

The one habit this week: Says Who?

Before you write a claim, ask: *Could I attach a real place name, number or named scheme to this?* If not, the sentence is too vague to earn marks. "Lots of people live in slums" earns nothing. A named area, a scale or a named project earns marks.

Task 1: Evidence Bank (5 minutes)

From your Shanghai notes, list five **specific** facts you could use in an answer. Each needs a named place inside the city, a number, or a named scheme or project. In the right column write P, N or S.

Specific fact from my Shanghai notes	P / N / S

Task 2: Explain two reasons (8 minutes)

Explain two reasons why megacities have grown so quickly in LICs and NEEs. (4 marks)

Shape of a good answer: each reason is stated, then developed with *because* or *which means*.

Reason 1

Reason 2

Task 3: One problem, with evidence (12 minutes)

Using Shanghai (or another megacity you have studied), explain one problem caused by rapid growth. (practice question, about 6 marks)

Use at least **two** items from your Evidence Bank. Then **underline every named place, number and named scheme** in a different colour.

Specific details I underlined: _____ (aim for four or more)

Self-check (5 minutes)

- ☐ Every claim in Task 3 has a named place, a number or a named scheme attached.
- ☐ At least two pieces of evidence came from my Evidence Bank.
- ☐ My evidence **proves** the problem. It is not just a fact about the city.
- ☐ In Task 2, each reason has a *because* or *which means*.
- ☐ I avoided empty phrases like “lots of people”, “a big problem” and “it is bad”.

Oral check with a parent (5 minutes)

Parent: point at any claim in the Task 3 paragraph and ask: “Where exactly? How many? What is it called?” She answers out loud from memory. Then ask: “So how does that show the problem?”

Answered without reading it ☐ Needed a prompt ☐ Could not answer ☐

Weekly review (for J, 5 minutes)

Timings

Screen drill: _____ min Written: _____ min Self-check: _____ min

What was weak? (e.g. vague evidence, skipped working, skipped the check)

What worked?

Change for Week 2 (feeds the next build; add the next habit only if Says Who? felt natural):
